**Birding the Pacific to the Peaks!  
with Frank Gallo & Jay Withgott**

**May 29 - June 9, 2026**

*Contact [gina@sunrisebirding.com](mailto:gina@sunrisebirding.com) to reserve your space!*

With a wealth of scenic beauty and the fifth-highest bird list of any U.S. state, Oregon makes for an exciting birding destination. One could spend a lifetime here and never run out of fascinating places to visit and natural spectacles to behold. Spanning a diverse mix of biogeographic regions, Oregon is blessed with a variety of remarkably different habitats.

Our tour begins along the coast, where nutrient-rich cold-water currents of the Pacific Ocean nurture a productive marine food chain that supports an abundance of seabirds. Craggy headlands, immense sea stacks, and rocky tide pools alternate with sandy beaches, mudflats, and estuaries as we follow the coast, south. Then, after crossing the conifer-dominated forests of the Coast Range, we'll descend through oak woodlands and drop into the Willamette River Valley, its farms nourished by the lush soils that lured settlers in the 19th century. Climbing through maple forests up into the Cascades, we'll encounter a sampling of high-elevation forest species before entering Oregon's high desert at the northwestern edge of the Great Basin. (Photo: **Tufted Puffins**)

Oregon has much to offer birders at any time of year, but in late spring breeding is in full swing, birds are vocal and active, and the high desert of eastern Oregon is at its most vibrant and beautiful. Vast sagebrush plains interlaced with riparian corridors and wetland oases make for a fascinating landscape full of birds typical of the American West. We will aim to get the most out of our time here with stays at two wonderful remote and rustic lodges perfectly situated in prime birding areas. (Photo: **Lazuli Bunting**)

Following this high desert immersion experience during the splendor of spring, it's back to the ponderosa pine zone of the Cascades to enjoy a delightful bird community in beautiful surroundings. On our final day we'll see scenic river gorges, the state's highest mountain peak, the mighty Columbia River, and Oregon's tallest waterfall. As we savor the bird diversity of these diverse locations, we will also be keeping an eye on the vast assortment of butterflies, dragonflies, reptiles, amphibians, mammals, marine invertebrates, and flowers that we will encounter on this exciting

loop tour through Oregon. (Photo below: **White-headed Woodpecker**)

*Some highlights & targets of this fantastic tour:*

- 11 species of Woodpecker, including White-headed, Lewis's, and Black-backed Woodpecker
- Up to seven species of owl, including Northern Pygmy Owl, Barn Owl, Flammulated, and Western Screech
- Sooty Grouse, Chukar, Mountain, and California Quail
- Nesting Barrow's Goldeneye, Harlequin Duck
- Western shorebirds such as Surfbird, Black Oystercatcher, Black Turnstone, and Wandering Tattler
- Sagebrush species such as Sage Thrasher and Sagebrush Sparrow
- Western songbird specialties such as the unique Wrentit, Lazuli Bunting, Pacific Wren, Tricolored Blackbird, Mountain Bluebird, Pinyon Jay, Clarke's Nutcracker, and Chestnut-backed Chickadee.

**Combine this with Oregon's spectacular scenery, majestic mountains, picturesque waterfalls, and old growth forests, and you have an adventure you'll always remember... We hope you can join us.**

---

**ITINERARY**

**Day 1: Arrive in Portland, Oregon (PDX).**

Plan to meet at 6:00 p.m. in our hotel lobby for a welcome dinner.

**Day 2: Portland to the coast**

On our first birding day we will travel from our Portland hotel to the coast. On the way, we'll make stops to sample species from the Willamette Valley and the Coastal Range, including targets like Acorn Woodpecker, Sooty Grouse, and American Dipper along with the first of many expected species such as Brewer's Blackbird, **Western Tanager**, Steller's Jay, Lesser Goldfinch, and Band-tailed Pigeon.

Our tour of the Oregon coast takes us to one of its most iconic calendar-shot locations, **Haystack Rock at Cannon Beach**, where we hope to see Tufted Puffins flying to and from their nesting burrows high atop this scenic sea stack. We'll explore the area for coastal species such as Black Oystercatcher and Harlequin Duck, amid swarms of **Common Murres** and three species of cormorants, and we'll also get a small taste of old growth Sitka spruce forest. Heading south down the coast, we'll end the day in Tillamook where, if time and interest allow, we'll peek into the famed Tillamook Creamery for a quick tour of their cheese-making operations and a taste of their ice cream. Night in Tillamook.

### Day 3: Following the coast south

After skirting the edge of Tillamook Bay looking for lingering shorebirds, we'll take in the gorgeous ocean views from atop the forested headland of Cape Meares, before proceeding to Three Arch Rocks. Theodore Roosevelt made these sea stacks into our first national wildlife refuge west of the Mississippi, and they still host seabird colonies today.

Continuing south along the coast, we'll stop for local specialties such as **Wrentit**, Pacific Wren, Hermit Warbler, and Chestnut-backed Chickadee and for coastal species including Surf Scoter, Pacific Loon, Brown Pelican, Pigeon Guillemot, Wandering Tattler, Whimbrel, Rhinoceros Auklet, and Marbled Murrelet. Night near Otter Rock.

### Day 4: From the ocean to the valley

We'll begin the morning at Boiler Bay, the best spot on the Oregon coast for sea watching, scoping a parade of coastal and pelagic birds as they make their morning commute over the waves. Then we'll visit Yaquina Head and its lighthouse for another sea-watch on a rocky peninsula and for closer views of nesting murrelets and cormorants. Views of gray whales, sea lions, and harbor seals are possible from this stretch of the coast, and a rich community of marine invertebrates will be visible at the lowest tide. Midday will be birding the bay, estuary, and jetties at Yaquina Bay in Newport.

In the afternoon we'll bid adieu to the coast and ascend over the Coast Range and into the Willamette River Valley. En route at Finley National Wildlife Refuge we hope to pick up a mix of species such as Anna's and Rufous Hummingbirds, Vaux's Swift, Hutton's Vireo, Western Flycatcher, Western Wood-Pewee, Bushtit, MacGillivray's Warbler, Black-headed Grosbeak, and Lazuli Bunting. We'll end the day with an evening stroll through marshes, ponds, and oak woodlands at Fern Ridge Reservoir near Eugene. Night in Eugene.

#### **Day 5: Over the Cascades and into the high desert**

After cleaning up any species needed from the valley lowlands, we'll head up and over the Cascades, traversing Oregon's highest mountain chain. **Salt Creek Falls** is Oregon's only known nesting site for Black Swift; we have only a remote chance at this elusive species, but the jaw-dropping scenery is guaranteed.

After passing through several elevational life zones and examining an imposing ancient lava rock flow,

we'll enter Oregon's high desert, the vast arid region in the rain shadow of the Cascades. We'll search for **Prairie Falcon**, Canyon Wren, Rock Wren, Say's Phoebe, and White-throated Swift at the striking formation known as Fort Rock, then hope for Pinyon Jay, White-headed Woodpecker, Gray Flycatcher, Clark's Nutcracker, and Western and Mountain Bluebird at Cabin Lake. We'll end the day at the lovely Summer Lake Wildlife Area, where we'll stay two nights at a lodge perfectly situated for birding. After a hearty country dinner at the lodge, we can search for night birds like Common Poorwill, Barn Owl, and Great Horned Owl, and might even take a stab at trying to hear Yellow Rail, an enigmatic and highly localized species that should just be arriving. Night in Summer Lake.

#### **Day 6: Summer Lake**

We'll start the day birding the upland rim that overlooks Summer Lake, an alkali lake basin of the high desert, where wildfires have created a dynamic patchwork of forest and burned areas. Here we'll hope for an interesting mix of species including Lewis's Woodpecker, Cassin's Finch, Williamson's Sapsucker, Mountain Quail, Blue-gray Gnatcatcher, and more. Then through much of the day we'll take our time driving the 10-mile loop through the Summer Lake Wildlife area, a bonanza of pools, ponds, marshes, mudflats, and alkali flats, looking for Snowy Plover, **Long-billed Curlew**, American Avocets, Black-necked Stilts, Western and Clark's Grebes, and more.

Summer Lake is a favorite spot among Oregon birders, and it rarely disappoints. For those in the group eager for night birding, we can have an optional evening to search locally for (night birds) owls, poorwills, and rails. Night in Summer Lake.

### Day 7: Summer Lake to Malheur

After a bit of breakfast-time birding around the lodge, we'll hit the road, traversing a broad region of arid high desert dominated by sagebrush — the so-called Sagebrush Sea so iconic in the Great Basin West hoping for birds like Golden Eagle, Black-billed Magpie, and Chukar along the way, as well as Black-throated, Brewer's, Vesper, Lark, and Sagebrush Sparrows. We'll look for Pronghorn antelope and make stops at wetland oases as we approach the famed Malheur National Wildlife Refuge, a mecca for birders from around the Pacific Northwest. Wetland species such as Black Tern, White-faced Ibis, Eared Grebe, and nesting waterfowl will mix with land birds such as Sage Thrasher, **Sagebrush Sparrow**,

Western Kingbird, Western Meadowlark, and California Quail. Our destination and base for the next two nights, the Hotel Diamond, is a rustic and charming ranch-turned-lodge nestled within a grove of cottonwoods amid a landscape of dry hillsides and wet meadows. Night in Malheur.

### Day 8: Malheur NWR—south

Waking up to Bullock's Orioles in the cottonwoods and Bobolinks in the fields, we'll spend the day exploring the southern portion of Malheur NWR. Yellow-headed Blackbirds will "serenade" us with their raucous songs, **Violet-green Swallows** will entertain us with their aerial antics, and we'll look for Trumpeter Swan, Wilson's Phalarope, and other wetland birds as we head toward Page Springs Campground, where Yellow-breasted Chats in riparian brush meet Black-throated Gray Warblers in juniper hillsides, and Lazuli Buntings may be found.

After visiting the remote town of Frenchglen ("Social distancing since 1872"), we'll loop back north and explore the volcanic scenery of Diamond Craters and visit a unique historic barn beside a seasonal lake. After a hearty ranch dinner at the lodge, those interested may take a slow night drive to hear calling Soras and, if we're lucky, Long-eared Owl. Night in Malheur.

#### Day 9: Malheur NWR–north

Today we'll explore the northern portion of Malheur NWR, including the refuge headquarters. "Headquarters," as it is affectionately known, has held a special place in birders' hearts for decades. Locals flock here in late spring searching for vagrant bird species from eastern North America, and we may come across a few ourselves as we enjoy the typical western fauna. You never know what migrants and vagrants might be lurking in the trees and bushes here, while American White Pelicans and Franklin's Gulls fly in the distance, Sandhill Cranes stand at attention in the fields and marshes, Black-chinned Hummingbirds visit the feeders, and Belding's Ground Squirrels run around your feet.

In the afternoon we'll check more oases and hope for **Burrowing Owl**, Ferruginous Hawk, Swainson's Hawk, and other species, as we grab an early dinner and head west on a long drive through the Sagebrush Sea back toward the Cascades. Night in Bend or Sisters.

#### Day 10: In the ponderosa pines

We'll spend today exploring the scenic ponderosa pine woodlands around the charming town of Sisters, on the lower east slope of the Cascades. Pygmy Nuthatch, Dusky Flycatcher, Calliope Hummingbird, Mountain Chickadee, Townsend's Solitaire, Green-tailed Towhee, Pinyon Jay, and White-headed Woodpecker are a few of the specialty birds of this area. The region is also known as Oregon's "woodpecker wonderland," with 10 or 11 species possible. We'll make a special effort for any known individuals of Black-backed Woodpecker (not easy), American Three-toed Woodpecker (rare), and Red-naped Sapsucker (difficult now that **Red-breasted Sapsuckers** are spreading east and hybridizing with them!). Night in Sisters or Redmond.

#### Day 11: Gorges, peaks, rivers, and waterfalls

Our final day takes us all the way back to Portland, punctuated by several stops in varied habitats. We'll enjoy astonishing scenery along the Crooked River and aim for good views of White-throated Swift and any arid-land species we still need, before searching out Tricolored Blackbird, an elusive and highly localized species whose colony sites may vary from year to year. Photo: **Pinyon Jay**.

We'll then transition into mountain scenery where breathtaking views of Mount Hood, Oregon's highest mountain, are possible from the impressive Timberline Lodge. Aptly named, this lodge is indeed at timberline; professional skiers train here (and for movie buffs, parts of the film "The Shining" were filmed here). We'll then drop down to the Columbia Gorge, to take in the views of the "gorge-ous" cliffs along the Columbia River (North America's fourth-largest river by volume) that wowed Lewis and Clark on their historic journey. If conditions are right, we can watch the daring acrobatics of kite surfers over dinner from a brew pub in Hood River. An evening visit to Oregon's highest waterfall, on our way back to Portland will complete our tour. Night in Portland.

## Day 12: Portland – Depart for Home

**Leaders: Frank Gallo & Jay Withgott**

### **Frank Gallo**

Frank is a leading expert on where to find birds in Connecticut. Through his birding tours, lectures, and classes he has inspired countless birders to discover and appreciate the region's rich bird life. Before joining the Sunrise Birding team, Frank worked for the Connecticut Audubon Society for twelve years, as the Senior Naturalist and Director of the Connecticut Audubon Society Coastal Center at Milford Point. Previously, he served at the New Canaan Nature Center as Director of Public Programs and Director of Eco-Travel and Field Studies, and before that with the New Haven Parks Department. Currently, he is a member of the Connecticut Avian Rare Records Committee, is federally licensed as a master bird bander, and is a past president of the New Haven Bird Club. Frank has recently completed work on his bird finding guide, *Birding in Connecticut*, published in May 2018. In 2003 he received the Connecticut Outdoor Environmental Education Association's award as Environmental Educator of the Year. Frank leads local bird walks for Sunrise Birding and will be developing weekend trips as well as domestic and international birding tours.

## Jay Withgott

Jay Withgott is a lifelong birder and has spent more than 20 years exploring the varied habitats of his adopted home state of Oregon. An eBird reviewer and longtime member of the Oregon Bird Records Committee, Jay is currently editor of *Oregon Birds*, the state's journal of birding and field ornithology. He has helped lead many birdathon trips across Oregon and was part of Oregon's record-setting big day team. His interests extend beyond birds to dragonflies, butterflies, herps, marine invertebrates, and more. He has served on the board of Western Field Ornithologists and the Bird Alliance of Oregon (formerly Portland Audubon) and now serves on the board of the Xerces Society for Invertebrate Conservation. In his day job, he is an author of leading college textbooks in environmental science. He lives in Portland with his wife Susan, a biology professor at Portland State University.

# OREGON, May 29 - June 9, 2026

Contact [gina@sunrisebirding.com](mailto:gina@sunrisebirding.com) to reserve your space!

**TOUR PRICE:** \$4545 per person based on double occupancy and a group of 8 pax from Portland, Oregon (Airport code: PDX) . With less than 8 pax, a small group supplement will be charged.

**Single supplement:** \$1199 per person, subject to availability.

**Deposit:** \$1000.00 per person per tour. Note: Tour deposits can be paid by credit card via PayPal. Please advise [gina@sunrisebirding.com](mailto:gina@sunrisebirding.com) if you wish to use this payment method.

**Included in cost:** Accommodation in double / twin en suite rooms with full board, group transportation on arrival, detailed pre-trip materials and checklists, services of local guide and tour leaders throughout the trip.

**Not included:** Flights to and from Portland, Oregon, luggage charges, insurance, drinks, tips, and items of a personal nature. Also, any and all costs arising from pandemic or Covid-19 related issues are not included in the tour cost and are the sole responsibility of the traveler. These include, among others, the costs of Covid treatment, hospitalization, medical fees, transport, meals and accommodation in case of illness or quarantine, and the costs of any Covid tests needed before, during and after the tour.

**Tour Code:** This is a standard birding tour with all day birding. No particular strenuous walks are planned but there are some uphill treks. Birding is mostly from open roads, wide tracks and even boats. To see a good number of specialties you need to be prepared for full days. We will generally start early and either have an early breakfast or return for breakfast. Lunches will be either picnic or at the lodges depending on our schedule.

**RESERVATIONS:** To reserve your place on this tour:

- 1) Contact Gina Nichol at [gina@sunrisebirding.com](mailto:gina@sunrisebirding.com) to confirm availability and hold your place.
- 2) Review Sunrise Birding's *Terms and Conditions of Booking*
- 3) Complete the *Registration & Release Form* and mail it with your deposit of US\$1000.00 per person to Sunrise Birding, LLC within two weeks to secure your place.

**Reservations are held with a paid deposit on a first-come, first-served basis.**

Check or bank transfer are preferred but credit card payments are possible (surcharges of up to 5% are added depending on amount to cover credit card company fees). Final payment is due January 29, 2026.

**\*\*Please note:** Tour prices are based on quoted costs from ground operators (in their local currency), estimated fuel costs, and the rate of exchange the time of itinerary publication. The erratic nature to global financial markets makes it difficult to predict changes in costs and foreign currency exchange rates over the long term. Since tours are priced well in advance of the actual operation of the tour, tour costs, fuel costs and exchange rates can change, sometimes drastically. Depending on the extent of such changes, it may be necessary to implement a surcharge on this tour. If a surcharge is necessary, every effort will be made to minimize the amount.

**Cancellations and Refunds:** Please review our Terms and Conditions of Booking prior to registering for this tour. All cancellations must be made in writing. Please ensure that you take out

adequate insurance to cover this and any other eventuality as early as possible. You may have the opportunity to transfer your booking to another tour or another person, provided you are unavoidably prevented from coming on the tour. In this case, you will bear any extra costs that such changes may incur.

There are no refunds once the trip is confirmed to go ahead and no refunds will be made for unused meals, accommodations, or other trip features. Sunrise Birding, LLC cannot accept liability for airline cancellations or delays or penalties incurred by the purchase of non-refundable airline tickets or other expenses incurred by tour participants in preparing for this tour.

### **TRIP INSURANCE:**

Sunrise Birding LLC strongly recommends that you consider purchasing a travel protection plan to protect you and your travel investment against the unexpected in case of delay, injury or illness prior to or during a tour. Travel protection plans can include coverage for Trip Cancellation, Trip Interruption, Emergency Medical and Emergency Evacuation/Repatriation, Trip Delay, Baggage Loss and Delay, Emergency Medical Transportation, Pre-existing Conditions, and more. [Get started here>](#)

**PLEASE NOTE:** Insurance policy requirements vary and the timing of your purchase can affect coverage. Some insurance providers require that for coverage of pre-existing conditions, a policy must be purchased within 7-14 days of booking. Others, like CSA, offer policies that cover pre-existing conditions as long as the policy is purchased prior to making your final payment for the tour.

Trip insurance policy premiums may be non-refundable, but they may be able to be amended or transferred. Check with your insurer. It is important to be sure that the tour is sufficiently subscribed to operate before you purchase trip insurance.

Pay attention to coverages provided by your policy. Be aware of the requirements of country or destination can change, so check often. Some policies are now offering Covid related coverages so check with your insurer.

US medical insurance plans (including Medicare) often do not provide coverage outside the US. The US State Department strongly advises Americans to consult with their medical insurance company prior to traveling abroad to confirm whether their policy applies overseas and if it will cover emergency expenses such as a medical evacuation. Consult with your insurer prior to your trip to ascertain whether payment will be made to the overseas healthcare provider directly or whether you will be reimbursed later for expenses that you incur. Be sure to get and keep all documentation of any expenses incurred.

Questions? Contact Gina Nichol at [gina@sunrisebirding.com](mailto:gina@sunrisebirding.com) Photos by Jay Withgott unless noted.

This request for registration is made subject to "Sunrise Birding LLC Terms and Conditions of Booking, Responsibilities and Assumption of Risk" AND the Agreement to Release and Indemnify in this document. Please read this entire document and our Terms carefully. All registrants must sign this release. Your registration can not be confirmed until your deposit is received and this agreement is signed.

**Second page must be signed and returned with registration**

## AGREEMENT TO RELEASE AND INDEMNIFY

Each registrant named on this form requests to participate in the tour listed thereon. Therefore, to the extent permitted by applicable law, each registrant knowingly and voluntarily waives, releases, saves, holds harmless and indemnifies Sunrise Birding, LLC of Branford, Connecticut with a mailing address of P.O. Box 274, Cos Cob, CT 06807, its agents, servants, employees, shareholders, officers, directors, attorneys and contractors, past, present and future, and its respective heirs, legal and personal representatives, successor and assigns (collectively "Released Parties"), and all of its respective properties, assets and interests ("Released Property") from any and all claims, actions, causes of action, demands, rights, damages, costs losses, liabilities, expenses, compensation, controversies, disputes, obligations, debts, dues and liens whatsoever, on account of, or in any way arising out of, any and all known and unknown, foreseen or unforeseen loss of life or personal injury, loss or damage to property, and the consequence thereof, directly or indirectly, resulting from, incident to, in connection with, or arising out of that registrant's participation in the tour(s) (collectively, "Claims"). It is my/our intention that this agreement to release and indemnify shall apply to all of the claims without limit and, to the fullest extent permitted by applicable law, regardless of whether founded, in whole or in part, on any negligent act or omission of any of the released parties.

I/we understand **and agree** that Sunrise Birding, LLC has no liability for my personal medical expenses **and/or medical care**. I/we certify that I/we am in good health and physical condition and do not have any physical disability, medical condition or other limiting factor that would create a hazardous situation for myself/us or other passengers. Further, I/we understand that certain risks are inherent in the activities to be undertaken by me/us, including snorkeling, swimming, hiking, climbing ruins, boat travel, travel to remote locations, contact with wildlife or hazardous plants, and that inclement weather and unavailability of first aid or emergency medical treatment as well as other unknown or unanticipated risks may occur such as war or terrorism, and I/we accept full responsibility for such specified inherent risks and those not specifically identified.

I/we have read, understand, and accept Sunrise Birding's deposit, cancellation and refund policies and terms and conditions as described in the tour itinerary and accompanying documents. I/we have read and understand this Agreement to Release and Indemnify, which contains the entire and final agreement relating to the subject matter hereof. Its terms shall be binding on me/us and on my/our heirs, legal representatives and assigns. Liability under this Agreement to Release and Indemnify shall be joint and several. If any provision of this Agreement to Release and Indemnify is determined to be void, unenforceable, ineffective or against public policy, that provision shall be disregarded and deemed removed from this Agreement to Release and Indemnify and shall not affect the remaining provisions of this Agreement to Release and Indemnify.

I/we understand that tour prices for both land and air can vary due to supplier charges, currency fluctuations, park fees, and other increased costs and that the cost of this tour is subject to change to reflect such variations. I/we have been advised of obtaining insurance coverage for trip cancellation, medical assistance, and baggage loss. I/we understand and accept all terms and conditions and the undersigned's signature below is evidence of this acknowledgement. The receipt of this signed form and your tour deposit shall be deemed to be consent to the above conditions. This agreement to release and indemnify shall be governed by and construed under the laws of the state of Connecticut. Venue for enforcement of this release and indemnity agreement shall be in New Haven County, Connecticut.

This request for registration is made subject to the terms and conditions of the Agreement to Release and Indemnify included in this document. Please read this entire document carefully. All registrants must sign this release. Registration cannot be confirmed until your deposit is received and this agreement is signed. Registration and/or attendance imply agreement with the terms and conditions of the Agreement to Release and Indemnify included in this document.
